-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

1. Claims 1-16 are presented for examination.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kashiwagi.

With respect to claim 1, Kashiwagi teaches the claimed complexity calculating means for calculating complexity when displaying said content based on said plurality of objects, at column 9 lines 18-51; and control means, at column 4 lines 48-55, for suppressing display of part of the objects included in said content based on said calculated complexity, column 9 lines 18-51, said priorities, at column 10 lines 63-64, and an upper limit of processing capability of the apparatus, at column 5 lines 52-60.

Art Unit: 2628

Claim 2 further requires said content includes animation formed of a plurality of frames, said complexity calculating means calculates complexity in display for each of said plurality of frames, and said control means performs control of display of each of said plurality of frames, at column 2 lines 7-11, column 6 lines 1-14 with the teaching of moving picture information, frames being inherent in moving picture (animation) information.

Claim 3 is similar to claim 1 but requires functions. Kashiwagi teaches this at column 9 lines 18-51, at column 2 lines 21-27, at column 2 lines 58-64

Claim 4 is similar to claim 2 and rejected under similar rationale.

Claim 5 is similar to claim 1 and rejected under similar rationale.

Claims 6-16 require features previously addressed in the rejections of claims 1-5 and are rejected under rationale previously provided for similar respective features.

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 6-16 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 6-10 and 16 are directed to a computer program. Computer programs fail to fit any of the four statutory classes of invention.

Claims 11-15, although drafted in method form, are directed to a computer program as evidenced by claims 6-10, in that the method steps of claims 11-15 correspond to the computer instructions of claims 6-10..

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Almis R. Jankus whose telephone number is 571-272-7643. The examiner can normally be reached on M-F, 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi can be reached on 571-272-7664. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
